

# SUNSHADE

*Maintains process accuracy by shielding instrumentation from solar heat*

**Four sizes** - SUNSHADE provides protection for single or multiple instruments, preventing instrument calibration drift due to temperature changes caused by solar radiation.

**Mechanical protection** - SUNSHADE will shield instruments from the sun and provide partial protection from falling objects, rain, snow, and wind blown sand.

**UV and corrosion resistant** - The blended ABS material has excellent UV and corrosion resistance.

**Easy access to instruments** - SUNSHADE mounts to a standard 2" pipe stand and can be removed easily for full instrument access.

## **E4 SUNSHADE**

The E4 SUNSHADE features a design that is stackable to minimize shipping costs, lightweight, impact resistant, and UV resistant.

### E1B SUNSHADE

### E4B SUNSHADE

### E2B SUNSHADE

Select the SUNSHADE size required: E1B, E2B, E3B, or E4B.

Select the SADDLEPAK® support required, refer to SADDLEPAK brochure for complete details.

### E3B SUNSHADE
